

Check It Out On My Dime!

I personally guarantee that you do not need to use high-cost alternate tools to create high-quality IBIS-AMI models and that you will be effective at creating the best low-cost IBIS-AMI models.

You have a full 30 days to put it to the test.

If at any point during that time, you don't feel you get 10x the value of your investment, I'll give you your money back.

Just contact me johnb@serdesdesign.com and I'll give you every penny of your investment back.

I only want you as a customer if you're 100% happy with your investment.

Simple as that.
